ECCOLAB GROUP

ECCO LAB GROUP CO.

Your one stop solution for all your Clinical laboratory needs.

2022

WHO WE ARE

Ecco Lab Group is a full-service clinical laboratory that supports Phase I-IV Clinical Trials. We are CLIA Licensed and COLA Certified, along with GCP and OSHA Certification for the entire team.

With over 20 years of experience and 900+ successfully completed studies under our belt, Ecco Lab Group has demonstrated to be of great value to numerous Sponsors, Contract Research Organization (CRO), and Investigators.

OUR CAPABILITIES

Currently there is 2 equally capable Testing Laboratories, located on Miami and Tampa (Florida).

We employ a series of local drivers to cover most of the South Florida area, while also contracting with various couriers to manage the transport for Out-Of-State or International Sites (Central America).

OUR JOURNEY

01

Ecco Lab Group Co. was founded on May 31, 2001 by Jorge L. Mesa, our current president.

02

After great success servicing Nursing and Rehabilitation facilities in the Miami and Broward county within South Florida, a secondary laboratory was launched in Tampa, FL. This extended our reach to cover more high-demand areas like Orlando and Jacksonville, FL.

03

After fully standardizing the process and equipment within both laboratories, Ecco Lab Group Co. introduced it's first dedicated Clinical Trials team in 2017. The idea was to offer all the best features of all the major Local and National labs together under one roof.

04

By offering aggressive Pricing, Same-Day Turn-Around Time for the all tests, fully Bilingual team, and unheard of Flexibility and Customization, Ecco Lab Group Co. formed the most competitive lab in South Florida. It currently rivals and often surpasses big national labs like QUEST or LabCorp in overall completeness.

THE GOAL

At Ecco Lab Group, we understand that Quality should never be compromised, no matter the cost.

Our goal is to carry the heavy load and help with all the Clinical Laboratory testing, along with all the Logistical work involved in this line of business.

We want to give our clients the ability to focus on what's important: Patient Safety and Protocol Compliance.

OUR DEPARTMENTS

CLINICAL CHEMISTRY

- Electrolyte Panel
- Hepatic & KIDNEY FUNCTION Panel
- Lipid Profile
- Hormonal Testing
  - Thyroid Function Panel
  - HCG (Qualitative & quantitative)
  - FSH
  - LH
  - PROLACTIN
  - Testosterone (Total / free)\

HEMATOLOGY

- Complete Blood Count (CBC)
- Blood Cell Morphology
- Retic Count
- Sed Rate (ESR)

SPECIAL CHEMISTRY

- Pro BNP
- HS Troponin I & T
- Calcitonin
- HSCRP & CRP Quantitative

COAGULATION

- PT/INR
- aPTT
- Thrombin Time
- FIBRINOGEN
- D-DIMER
- ANTITHROMBIN III

OUR DEPARTMENTS (CONTINUED)

URINE TESTING

- URINALYSIS (with microscopy if needed)
- urine chemistry
- URINE PREGNANCY

MOLECULAR/PCR

- SARS-cov-2
- Influenza a/b
- Rsv
- C.diff toxin
- Comprehensive respiratory panel (17)

EXTENSIVE MICROBIOLOGY DEPARTMENT

- Aerobic & anaerobic culture
- Isolation & identification
- Sensitivity (MIC)
- Blood cultures

SEROLOGY

- HIV ½ Ab & p24 antigen
- Hepatitis A, B & C
- (including all AB, core, antigen, and immunoglobulin variations)
- QuantiFERON-TB Gold

WHY ECCO LAB GROUP?

- Dedicated Quick responding team. requests are generally addressed within hours, not days.
- Same-day turn-around for all in-house procedures. (within testing requirements)
- very flexible team that adapts to most needs: from fully Customizable component-specific panels, to implementation of new testing procedures. (if instrumentation compatibility)
- Real-time reports via our web portal. (easy to use mobile-version available)
- Connection to major supply distributors. If we don't carry an item in-stock, we most likely have a vendor that is able to outsource the item for our client.
- Especially Esoteric testing?
- We network with the mayor reference labs in the business to assist with any supplementary testing:
- (Mayo clinic, uf-health, UW-Medicine, eurofins viracor, and more).
- We handle all the processing, shipping, and resulting. A very seamless integration within our web portal, resulting on an unified report.
- Direct data transfers to sponsors. A more reliable, adaptable, and less error-prone method of submitting raw data for deep analysis.
